SUSIE B. HURD,
Auditor.

SCHOOL REPORT

Superintendent's Report

To the School Board and Citizens of Lempster:

I herewith submit my first report as Superintendent of Schools.

In assuming the duties of superintendent in the Lempster district, I appreciate the efficient work which has been done by Mr. Mason.

ORGANIZATION AND ENROLLMENT

The organization of the Lempster schools for instruction in two units is commendable. This arrangement is economical and efficient. A social advantage was immediately affected; the educational advantage will be realized more fully after a period of several years.

No changes in the teaching positions were necessary this year. Both teachers are well qualified for work with their particular group.

Enrollment January 15, 1934

<i>Lempster Street</i>		<i>East Lempster</i>	
Grade 1	7	Grade 5	5
Grade 2	6	Grade 6	8
Grade 3	4	Grade 7	6
Grade 4	5	Grade 8	2
Total		Total	
	22		21

Work is being accomplished in accordance with the standards for the State. Standard tests are being given as a part of the program in supervision. The results of the tests will be tabulated for purposes of comparison. Remedial measures will be provided where deficiencies in fundamentals are apparent.

In the primary grades the importance of reading cannot be over estimated. In the new elementary program of studies developed by a committee of New Hampshire teachers and superintendents, it is recommended that formal instruction in

reading should extend beyond Grade III. Training in silent reading as well as oral reading is emphasized. Through training in silent reading the pupils of the upper grades should be able to study independently and assimilate text material prepared for pupils of their age and grade. Certain processes in arithmetic that seem difficult for young children are mastered with comparative ease by pupils who are a little older and whose minds have developed to a point where they can understand such problems.

HEALTH

Milk is provided for seven pupils in the Lempster schools. Cod liver oil is given under the supervision of the school nurse.

Home visits by the school nurse are made for many purposes. She is alert to conditions in the school, home, and community which endanger the child's welfare. Weights are recorded on the school charts each month. Children are more and more interested in their well being and show interest in their growth and development.

Following is a report of the annual examination and follow-up work as made by the school nurse: Examination made October, 1933.

Total home visits by school nurse	12
Total number treatments at school	4
Total number treatments at home	1

The organization of a dental clinic would be very desirable for the correction of the large number of defective teeth.

BUILDINGS AND EQUIPMENT

The two buildings are in good repair, well lighted, and comfortable.

Installation of chemical toilets at the Lempster Street school would be very desirable.

The hyloplate blackboard at the East Lempster school should be replaced or resurfaced.

Some playground apparatus at the Lempster Street school would help in the organization of outside activity.

FINANCES

The School Board's estimate of total expenditures for the school year 1933-1934 is \$654.31 less than the amount actually spent in 1932-1933. The amount for the latter year included the sum of \$265.84 spent for alterations of buildings.

**LEMPSTER SCHOOL STATISTICAL REPORT
FOR 1932-1933**

Total Registration	46
Average Membership	40.19
Percentage of Attendance	93.28
Cases of Tardiness	47
Visits by Superintendent	52
Visits by Citizens	86
Number of Pupils not Absent or Tardy	5

The number of cases of tardiness is excessive. It is a responsibility of the school to impress pupils with the importance of forming habits of promptness. I solicit the co-operation of parents in an attempt to improve the record for the present year.

I wish to express my appreciation of the co-operation of the members of the School Board, parents, teachers, and pupils.

Respectfully submitted,

CHARLES D. DALZELL,
Superintendent of Schools.
